# PARI AGARWAL

📍 Bijnor, Uttar Pradesh
📧 Pariagarwal244@gmail.com | 📞 +91 7599222574
🔗 LinkedIn: linkedin.com/in/pari-agarwal07 | GitHub: github.com/pariiagarwal2005

# EDUCATION

**Bachelor of Technology (B.Tech) – Computer Science Engineering**
**Specialization: Cloud Computing & Virtualization Technology (CCVT)**
University of Petroleum and Energy Studies (UPES), Dehradun
**2024 – 2028 | Pursuing**

**Class XII (CBSE)**
76.2% | 2024

**Class X (CBSE)**
89.0% | 2022

# TECHNICAL SKILLS

**Programming Languages:**
Python (Basics), Java (Basics), C (Basics), SQL (Basics)

**Computer Science Fundamentals:**
Data Structures & Algorithms, Object-Oriented Programming (OOP), Problem Solving, DBMS Basics

**Artificial Intelligence & Generative AI:**
Retrieval-Augmented Generation (RAG), Large Language Models (LLMs), Embeddings, Prompt Engineering, Vector Databases

**Cloud & Development Tools:**
AWS, Docker, Git, GitHub, VS Code

**AI/ML Frameworks & Libraries:**
LangChain, Pinecone, PyMuPDF, Sentence Transformers

**Web Technologies:**
HTML (Basics), CSS (Basics), Responsive Web Development (Basics)

# PROJECTS

## Legal AI Research Assistant (RAG Chatbot)

**AI/ML Internship Project – NeetiQ**
**Technologies:** Python, LangChain, Pinecone, RAG, Embeddings, Vector Database

- Developed components of a Retrieval-Augmented Generation (RAG) based chatbot for legal document question-answering.
- Worked on document ingestion pipeline including preprocessing, chunking, and document handling.
- Generated embeddings for document chunks and integrated vector storage for efficient retrieval.
- Contributed towards building an end-to-end AI system connecting document processing, retrieval, and response generation.

## Personal Portfolio Website

**Technologies:** HTML, CSS, GitHub Pages/Netlify

- Designed and developed a personal portfolio website to showcase technical skills, projects, certifications, and internship experience.
- Implemented responsive layouts and interactive UI components using HTML and CSS.

## AI Chatbot using Gemini API

**Technologies:** Python, Gemini API

- Built an AI chatbot application integrating Gemini API for interactive question-answering.
- Explored API integration, AI response generation, and conversational system fundamentals.

## Java To-Do Application

**Technologies:** Java, OOP Concepts

- Developed a task management application using Java.
- Applied object-oriented programming concepts including classes, objects, and modular design.

# EXPERIENCE

## AI/ML Intern – NeetiQ

**June 2026 – July 2026**

**Project: Legal AI Research Assistant**

- Worked on developing a Retrieval-Augmented Generation (RAG) based legal chatbot system.
- Contributed to document ingestion, preprocessing, chunking, and embedding generation workflows.
- Worked with vector databases and retrieval mechanisms for efficient document search.
- Collaborated with team members to integrate pipeline components into an end-to-end AI application.
- Gained practical exposure to Generative AI workflows, LLM concepts, and AI system design.

## Social Intern – Saarthi Hum Foundation

**June 2025 – July 2025**

- Participated in community awareness initiatives and outreach activities.
- Assisted in organizing events and coordinating with team members.
- Developed communication, teamwork, and organizational skills through practical experience.

# CERTIFICATIONS & ACHIEVEMENTS

- **Summer Internship – Legal AI Research Assistant**
  NeetiQ | 2026

- **AWS Academy Graduate - Cloud Foundations**

- **IBM SkillsBuild Certification - Artificial Intelligence Fundamentals**

- Certificate of Participation – **UPES Code Crusade Coding Quiz**

- Actively exploring Artificial Intelligence, Cloud Computing, Generative AI, and Software Development.

# INTERESTS

- Artificial Intelligence & Machine Learning
- Generative AI and Large Language Models
- Cloud Computing & Virtualization Technologies
- Software Development
- Data Structures & Algorithms
- System Design Fundamentals

# LANGUAGES

- English
- Hindi
